Dear Ivan Ivanov,

Hello! My name is Anton. I have a few suggestions about a name of the street and what it could look like.

I think that street can be named "Musk's street" according to world-famous person Elon Musk. I think that ~~it~~ it is a good choice because this billionaire, engineer, programmer and philanthropist is one of biggest influence in the world nowadays. He is a leader of such well-known companies as "SpaceX", "PayPal", "Tesla" etc. Any of his word can change everything!

According to Elon's projects, I think that design of streets could be very modern. This ~~it~~ street should have high-technology objects like roads using magnetic lines, smart stores and navigating system. Space theme would be perfect for such place. White color buildings, many details like stars at some windows and bus stops according to planets in Solar systems. This street is must to be bright and some motivating as Elon Musk! Also I think that transport must be automatic for easy using. It can approve speed whole moving system.

Best wishes,

Anton.
